## BEST BEAUTY SECRETS

*you'll ever hear*

SHARE THE WEALTH, WE SAY ...  
Tricks from the powder room that will  
SAVE YOU *time, money and face*

1

"DAB A BIT OF LIPSTICK ON  
THE APPLES OF CHEEKS and blend for  
instantly matching lip and cheek colour."  
**Rika Ishii, Aveda guest makeup artist.**

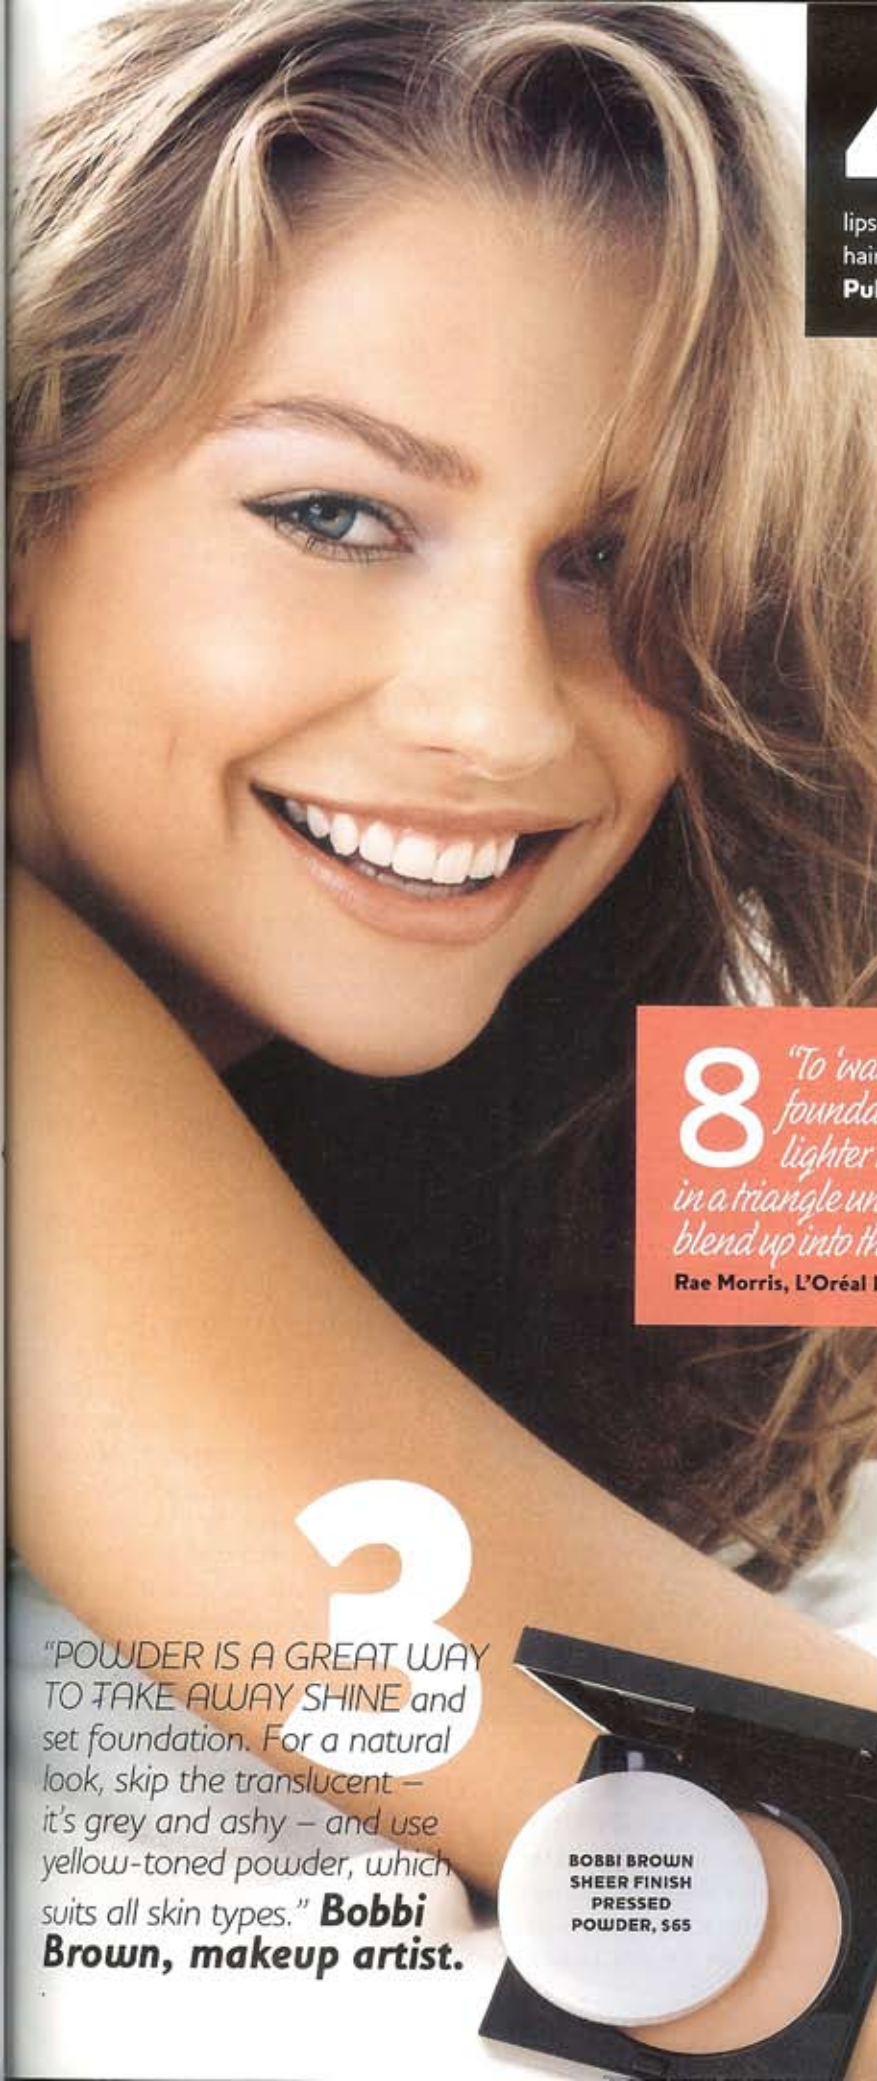

AVEDA  
NOURISH-  
MINT SHEER  
MINERAL  
LIP COLOR,  
\$29.95.

2

*"To brighten eye-  
shadow, blend a white  
eye pencil under the  
shadow to give a more  
'true' colour result."*

Napoleon Perdis,  
Napoleon Perdis  
Cosmetics founder.

NAPOLEON PERDIS  
EYELINER IN WHITE, \$24.

**4** "Keep Vaseline in your bag for makeup emergencies. It solves countless beauty problems, like chapped lips, wild eyebrows and frazzled hair." **Gina Pearce, Savage Public Relations director.**

**5** "For perfect bed hair, I wash it at night, apply shine serum and let it dry naturally. In the morning, I just use a wide-tooth comb to detangle, then go!" **Denee Savoia, freelance journalist.**

**6** "I use jojoba oil for makeup remover – it cleans mascara and any other makeup easily, and it nourishes the skin as well." **Ere Perez, Ere Perez Natural Cosmetics creative director.**

**7** "Twice a day, I moisturise, top to toe, and have done so since I was a child. My mother had me smoothing on Palmer's Cocoa Butter Formula from an early age. It's my simple secret of sexy skin." **Naomi Campbell, supermodel.**

**8** *"To 'wake up' eyes, use a foundation a few shades lighter than your face. Apply in a triangle under the eye and blend up into the inner corner."*

**Rae Morris, L'Oréal Paris makeup director.**

L'ORÉAL PARIS TRUE MATCH SUPER-BLENDABLE MAKEUP IN LIGHT IVORY, \$26.95.

**3** "POWDER IS A GREAT WAY TO TAKE AWAY SHINE and set foundation. For a natural look, skip the translucent – it's grey and ashy – and use yellow-toned powder, which suits all skin types." **Bobbi Brown, makeup artist.**

**9** "For whiter-looking teeth, gently brush gums to stimulate the area; the contrast of healthy pink makes teeth appear whiter. Finish with a dark lipstick or gloss." **Catherine Stapleton, Nimue Skin Technology trainer.**

**10** "For lush lashes, apply mascara, then gently press loose powder on lashes with a cotton pad, creating a synthetic thickening fibre, so, with another coat of mascara, they'll be fatter and longer. Set the curl with the back of a warm teaspoon." **Andrew Christie, Australis makeup artist.** >
