## for men

American Crew recently launched its revolutionary new hair colouring product, Precision Blend, to help men achieve naturally colour-blended hair in only five minutes. A combination of natural colour shades are available including a unique blending application that allows stylists to tailor their service for each person and give them a natural and defined end result.

The popular and versatile American Crew Tea Tree range can be used across a variety of hair types. Known for its healing, antibacterial and cleansing properties, tea tree oil is a natural antiseptic that is used for the treatment of many skin conditions and this range offers men simple performance-driven grooming options, from \$22.95.
