Ere Perez Natural Cosmetics

Ere Perez Natural Cosmetics

Henrietta's New Year resolutions include being naturally beautiful and environmentally aware. She's discovered some fab new cosmetics by Ere Perez that tick both those boxes ... hurrah!

The gorgeous new Ere Perez Natural Cosmetics range is the creation of Ere Perez, a Mexican born Sydneysider, who is the granddaughter of a Mexican natural healer and has a background in herbal remedies and natural therapy.

She's designed gorgeous and quick, easy to apply and simple three-step mini range of makeup made from organically grown ingredients to give women a naturally gorgeous glow with the least effort and need for cosmetic know-how.

Focusing on the lips, eye lashes and skin, the three step regime consists of a beautiful nude "lipbar" (cross between a lipstick and a lipsalve), a beautiful rice powder for the face in bronze or rose tones and an almond oil based mascara that not only makes your lashes look great but smells divine too!

Go to www.ereperez.com for info stockists or online purchase and be naturally beautiful this year.
