INDULGE & DISCOVER

*All Natural*

With growing awareness of the importance of pure, chemical-free skin care, it is fantastic to know that it is now possible to purchase natural cosmetics, which are both effective and affordable.

Ere Perez was born in Mexico and settled in Australia more than 10 years ago. As a woman who enjoyed wearing cosmetics but wanted a more natural alternative, Perez turned to the wisdom of her grandfather who has worked in natural therapies for many years. With his encouragement, Perez devised a cosmetic range that is all natural, nourishing and effective.

Ere Perez is gentle, suits every skin type and helps nourish and protect your lashes and skin by featuring a selection of ingredients of oils, plant extracts, minerals and antioxidants. This is great news for anyone with sensitive or allergy-prone skin, or simply for those who want to take better care of themselves on every level.

Confused about which vitamins to take?

Unbiased info, brand comparisons, reviews, articles, forums & blogs.
