Ere Perez is a natural, Australian made cosmetic company, created by Ere Perez herself. Having studied nutrition and natural therapies, Perez knows the benefits of using all natural cosmetics. This fabulous little range consists of mascaras, rice powders, foundation, lip bars, to name a few! Everything is reasonably priced, and definitely worth experiencing!

I've tried two of her products before, the Almond Oil Mascara and Lip Bar, the Mascara which I've been using for a couple of years now.

This mascara is truly the best I have ever used, and beats all the other natural mascaras I have tried
